

### National Curriculum

**As writers we will** write our very own unique recipes for a magical concoction. We will also study a range of different poems before having a go at writing our very own food poems.

**As readers we will** read the story 'George's Marvellous Medicine'. We will use the story to make inferences about the characters as well as make predictions about what we think might happen next. We will also be using the book to help inspire our writing.

**As mathematicians in year 1 we will** be looking at numbers to 40. We will also be comparing numbers and looking at number patterns before moving on to solving word problems. **In year 2 we will**

**As Scientists we will** identify and name a variety of everyday materials, including wood, plastic, glass, metal, water and rock. We will also describe the simple physical properties of a variety of everyday materials. **Year 2 children** will be focusing on the uses of everyday materials.

**As artists we will** use marbling inks to create multi-coloured prints, observing what happens when colours mix on the water's surface. We will also look in detail at food landscapes created by the artist Carl Warner and describe the way he uses different food types, including fresh fruit, vegetables and meat. As well as this, we will also work collaboratively to create large ice-cube paintings from frozen blocks of watered-down paints.

### Possibilities

As people who have a thirst for learning, we will:

- Study the work of artist Carl Warner and create our very own fruit art!
- Put our cooking skills to the test by trying out a variety of recipes.
- See if it is possible to make our very own ice-cream inside a bag!

### Community

As members of a community, we will:

- Begin to develop an understanding of where our food comes from and how fortunate we are to have such a wide selection of different foods available to us.
- Begin to learn and understand the importance of the term 'Fairtrade'.

### Adventure

As explorers, we will:

- Experience a variety of weird and wonderful mixtures with our hands and feet.
- Taste a range of food and drink from around the world and describe the flavours.
