Maths	Zoom live lesson- Finding quarters of shapes Paper and scissors would be useful.	Zoom live lesson- Sharing and grouping objects into halves and quarters Objects to count with would be useful.	Zoom live lesson- Sharing and grouping objects into halves and quarters Objects to count with would be useful.	Zoom live lesson- Review of halves and quarters	Zoom live lesson- Numbers to 100. Counting in 10s.

<p>Imaginative Learning Project work</p>	<p>Art <i>What is a collage?</i> Explain that we are going to use small pieces of tissue paper to build up our piece of art. We are going to choose an animal picture and then make it into a collage. To start with we are going to sketch out our animal onto a piece of paper, we will then use some tissue paper to layer up and make our collage, we will be making the collage to imitate the markings on the skin or fur. <i>What colours will you need for your animal?</i></p> 	<p>Science Talk about the different features of animals. Some parts are the same and some are unique to the group of animals. E.g. wings, scales, gills. Label the parts of different animals.</p> <p>https://www.twinkl.co.uk/resource/t-sc-278-parts-of-an-animal-activity-pack</p> <p>Some useful vocabulary: eye, nose, claw, wing, gill, scale, skin, hair, fur, shell.</p>	<p>PE</p> <p>We will be enjoying some non-contact and non-equipment active time in the afternoon. Challenge: How far can you jump? Mark it on the floor with chalk and then measure it!</p>	<p>Wild animal research</p> <p>Use the internet or books at home to find out about your favourite wild animal. Make notes about it and then present your facts in any way you choose. We can't wait to see what you find out!</p>	<p>Join in with our class Zoom Storytime.</p>
