

# Summer Term Part 1

## We will be reading:

## Phonics and Writing

In our phonics sessions we are going to be focussing on reading our words using the sounds we have been learning! We are reading red and green words every session and using our Book Talk sessions to read in groups also. Please continue to read with your child at home 5 times a week and record it in your reading diaries. This will enter your child into the reading raffle each week!

## Maths

During our lockdown learning we began to look at how we can add and subtract numbers. We are going to recap the first week and look at making our own number sentences. Next, we are moving on to other aspects of Shape, Space and Measure such as capacity, weight and size. We are looking at ordering measurements and using the language goes with it!

## Topic Learning

We are looking at Mythical creatures in the first week back after the Easter break! The children have shown a particular interest in dragons and unicorns so we have decided to base our next mini topic around it! We will also be learning about Ramadan. Following on from this, May is Local Community and History Month! We are going to focus on the History of Britain and specifically Milton Keynes, and look at different things we as a school do in our community. We will look at a local newspaper and have a look at writing out own non-fiction report as a class! We will also celebrate the Queens birthday with a mini tea party!

## Notices

We hope you have a wonderful holiday with your families! Have a well deserved break.

Reading books—we will take them in on a Monday along with your reading records. We will then give them out on a Wednesday. This will give you 5 days to read your book you have been given. Please read anything you have at home also and write in the reading record at least 5 times.

High Frequency Words—please practise these as much as you can! If you need another copy please email your teacher.

Labelling clothes—please label all items of clothing with your child's full name.

PE days—PE is now on a Friday. Please send your child in PE Kit for all weather as we do a lot of fun things outside too!

Junk Modelling—Please if you have any cereal boxes, clean boxes or pots—bring them in for our creative area!
