

Looking into our learning:

In Reception, we have been celebrating Diwali and Bonfire night over the past couple of weeks! We have created lots of beautiful artwork and we have even begun to write about some of the things we have been doing. We have made poppies for Remembrance day and we have been on a little adventure to pay tribute to the soldiers at the top of Apollo Avenue by laying our poppies there. As the weather has been changing it has led us to also begin to look at the changes in the seasons and investigate further what we know and what we can see!
