

Walk to Stony Stratford:

This week Year 2 went for a walk to Stony Stratford as part of our Geography learning about our local area. During our walk the children conducted a survey of the different types of buildings that we could spot on our walk and whilst in Stony Stratford. We discovered there are lots of hairdressers and coffee shops! We then stopped to conduct a traffic survey to record the different types of vehicles that drive through our local area. The children really enjoyed our visit and really did us proud throughout the walk. It was quite a long way! We even had time for a quick little stop off at the park on the way home. Well done Year 2!
